The collection of test includes 18 grammar sections, consisting of tests. Each of these sections provides a systematization of material by topic. The test system is built on the principle of a gradual increase in complexity - from testing the ability to recognize, determine, and differentiate the grammatical form to testing the ability to use in context in tests of a general nature.

The collection of test for the discipline "English language" is an integral part of the educational complex, developed in accordance with the curriculum of the course. This collection is designed for foreign students who begin to learn English. The solution of test tasks as an independent work of students in the study of the discipline will allow them to evaluate their knowledge acquired during the theoretical development of this academic discipline. The purpose of the test items offered to students is to determine the degree and strength of mastering knowledge English grammar.

Збірник тестів охоплює 18 граматичних розділів, до складу яких входять тести. Система тестів побудована за принципом поступового наростання складності, - від перевірки вміння впізнавати, визначати, диференціювати граматичну форму до перевірки вміння вживати в контексті в тестах узагальнюючого характеру. Тести мають ключі, що дає можливість самостійної роботи і самоконтролю.
